

MP3 modul:

0001.mp3
0002.mp3

2. Input
1. input
GND

Power supply
DC 9-15V/500mA

5 volt supply voltage output.
If necessary, it can feed for
example a sensor

+ Speaker 8 ohm,
- at least 3 watt.

Important!
Do not change the speaker
and power connection!

Voice volume setting:

+ : Hold down K3, and press the K1 button
- : Hold down K3, and press the K2 button

Play mode choice:

voice playing to ending/or restart:
K3 + K1 + K2 pressed for 5 seconds

To the starting inputs can be
attaching only 0-5 volts.
Or a "contact," between to the input and GND.
But do not connect to these inputs - IN1-2 - greater
than 5 volts. (12 volts, power supply, etc. !)
